Welcome

End to End Labels Ltd was founded in April 1978 by our Chairman Maurice Bird. Maurice had just completed a cycle ride from Lands End to John O' Groats raising money for the British Kidney Patients Association. This journey is known as the "End to End Run" which is an ideal name for our company when you consider the original aim was much the same as today - to supply labels from one end of the British Isles to the other.

This brochure has been designed to provide you with details of the immense product range available from our Company. We have built up a tremendous relationship with our friends in the Health Sector over the years and this brochure shows a wide selection of the goods we supply to many health departments throughout the UK and beyond. We supply many stock items and examples of these along with prices are shown. Also we are happy to supply bespoke items so if the product you require is not shown please do not hesitate in contacting us.

Thank you for your valued custom.
